

Arun Neelancherry

Bengaluru, India | arunneelancherry@gmail.com | 7736724018 | [Linkedin](#)

SUMMARY

A data enthusiast who is highly motivated and technically proficient. I possess exceptional analytical skills, and programming proficiency, and have a passion for deriving meaningful data insights. My drive and determination to contribute to innovative projects and grow within a dynamic and collaborative team environment set me apart.

SKILLS

- Python
- Data Manipulation and Analysis
- Natural Language Processing (NLP)
- Generative AI
- Power BI
- R Programming
- Neural Networks
- Machine Learning: Regression, Classification
- Time Series Forecasting
- Problem-Solving Skill
- Keras and TensorFlow
- Supervised & Unsupervised Learning

EDUCATION

Diploma in Data Science

ExcelR Solution, Bengaluru, Karnataka, India(2023 – 2024)

Bachelor of Science in Instrumentation

NSS College, Calicut University, Nemmara, India (2020 – 2023)

WORK EXPERIENCE

Data Science Intern | AI VARIANT

September 2023 - 2024 | Bengaluru

Time Series Forecasting

- Led a project on predicting stock prices using advanced statistical and machine learning techniques, including LSTM and Prophet.
- Achieved high-accuracy forecasts, enabling the company to optimize decision-making with real-time actionable insights.
- Enhanced model performance through rigorous hyperparameter tuning and feature engineering.

Natural Language Processing (NLP)

- Designed and implemented an end-to-end NLP pipeline to analyze over 20,000 hotel reviews, covering EDA, corpus visualization, and sentiment analysis
- Built and fine-tuned multiple machine learning models, identifying the most accurate one for deployment
- Successfully deployed the optimized model for global hotel attribute analysis, enabling identification of key factors driving positive customer feedback

PROJECTS & ACHIEVEMENTS

- **Arun's AI (Mini-GPT):** | Developed a GPT model using Langchain utilizing machine learning application Streamlit enhancing user accessibility and interaction demonstrating NLP and ML expertise.
- **Tata Data Visualization:** | Empowering business with effective insights job simulation on forage Created visuals for data analysis to help executives with effective decision-making for TCS

CERTIFICATIONS

- **Machine Learning with Python, IBM**
- **Data Science ,ExcelR Solution**
